

## CHARACTERISTICS

### Active Ingredient

$8 \times 10^9$  *Rhizobium leguminosarum* biovar *viciae* per ml

### Package Size

12.3 L inoculant (416 oz) + 3.35 L (113 oz) BioProtector Add-It

*Contains a co-pack of Bio-Protector AddIt for increased rhizobia survivability and seed treatment compatibility*

**Always read and follow label instructions**

# DUAL-STRAIN LIQUID INOCULANT FOR PEA, LENTIL, AND FABA BEAN

**LALFIX® LIQUID Pea & Lentil** contains two strains of *Rhizobium leguminosarum* biovar *viciae* selected for enhanced performance and competitiveness in pea, lentil, and faba bean production. These two strains are known to nodulate pea, lentil, and faba bean roots and fix atmospheric nitrogen in a symbiotic relationship with the plant.

## ADVANTAGES

- **LALFIX® LIQUID Pea & Lentil** can be applied on-seed or in-furrow.
- **LALFIX® LIQUID Pea & Lentil** in-furrow delivers a large quantity of Rhizobium directly to the soil.
- Lallemand Plant Care recommends using an on-seed inoculant along with an in-furrow application of **LALFIX® SPHERICAL Pea & Lentil** to increase the rhizobia available to the crop.
- Application rate of **LALFIX® LIQUID Pea & Lentil** in-furrow should be increased if this is the sole form of inoculant.

## APPLICATION RATE

### ON-SEED

- 94 ml per bu (74 ml inoculant + 20 ml BioProtector Add-It) per bushel
- Combine **LALFIX® LIQUID Pea & Lentil** with BioProtector Add-It and mix thoroughly prior to on-seed application
- 1 case treats 4,536 kg of seed or 166 bushels

### IN-FURROW

- 443 ml of inoculant per acre
- 1 case treats 28 acres
- Addition of BioProtector Add-It not required for in-furrow application

### About Lallemand Plant Care

Since the beginning of the 20th Century, LALLEMAND has been an expert in yeast and bacteria manufacturing. The family-owned company is now a global leader in the development, production, and marketing of microorganisms for various agri-food industries. Using sound science and know-how, LALLEMAND PLANT CARE (LPC) works closely with clients to deliver the right technology, in the right formulation, for the right application. LPC is committed to solving grower challenges, significantly improving yield and crop vitality.
