

## CHARACTERISTICS

**Active Ingredient**  
8 x 10<sup>9</sup> *Rhizobium leguminosarum*  
biovar *viciae* per ml

**On-Seed Application Rate**

- 94 ml per bu (74 ml inoculant + 20 ml BioProtector Add-It)

- Combine **LALFIX® LIQUID Pea & Lentil** with BioProtector Add-It and mix thoroughly prior to on-seed application

- 1 case treats 4,536 kg of seed or 166 bushels

**In-furrow Application Rate**

- 443 ml of inoculant per acre
- 1 case treats 28 acres
- Addition of BioProtector Add-It not required for in-furrow application

**Package Size**

12.3 L inoculant (416 oz) + 3.35 L (113 oz) BioProtector Add-It

Always read and follow label instructions

## DUAL-STRAIN LIQUID INOCULANT FOR PEA & LENTIL

**LALFIX® LIQUID Pea & Lentil** contains two strains of *Rhizobium leguminosarum* biovar *viciae* selected for enhanced performance and competitiveness in pea and lentil production. These two strains are known to nodulate pea & lentil roots and fix atmospheric nitrogen in a symbiotic relationship with the plant.

### ADVANTAGES

- **LALFIX® LIQUID Pea & Lentil** can be applied on-seed or in-furrow.
- **LALFIX® LIQUID Pea & Lentil** in-furrow delivers a large quantity of Rhizobium directly to the soil – in-furrow use rate of 15 fl oz (463 ml) per acre.
- Apply **LALFIX® LIQUID Pea & Lentil** inoculant in-furrow with a minimum of 10 US gallons of clean, non-chlorinated water per acre and calibrate delivery mechanism accordingly.
- Lallemand Plant Care recommends using an on-seed inoculant along with an in-furrow application of **LALFIX® SPHERICAL Pea & Lentil** to increase the rhizobia available to the crop.
- Application rate of **LALFIX® LIQUID Pea & Lentil** in-furrow should be increased if this is the sole form of inoculant.

## About Lallemand Plant Care

Since the beginning of the 20th Century, LALLEMAND has been an expert in yeast and bacteria manufacturing. The family-owned company is now a global leader in the development, production, and marketing of microorganisms for various agri-food industries. Using sound science and know-how, LALLEMAND PLANT CARE (LPC) works closely with clients to deliver the right technology, in the right formulation, for the right application. LPC is committed to solving grower challenges, significantly improving yield and crop vitality.
