

DUAL-STRAIN PEAT INOCULANT FOR PEA, LENTIL, & FABA BEAN

LALFIX® PEAT Pea & Lentil is a high quality, dual-strain sterile peat powder inoculant that contains a select peat carrier that aids in the adhesion of the inoculant to the seed. This product can be applied on the seed through a variety of application methods that suit the grower's requirements.

ADVANTAGES

- LALFIX PEAT Pea & Lentil is based on a sterile peat powder media which allows for an elevated delivery of Rhizobium leguminosarum biovar viciae directly to the seed.
- LALFIX PEAT Pea & Lentil contains two unique strains of Rhizobium leguminosarum biovar viciae for balanced performance in a range of environments.
- LALFIX PEAT Pea & Lentil contains a select peat carrier, which means better adhesion to the seed putting more inoculant in the furrow.
- LALFIX PEAT Pea & Lentil is applied to the seed without water. Therefore, there is no drying period.
- LALFIX PEAT Pea & Lentil can be used to double-inoculate first-year pea & lentil fields and seeded into fields with a lower carryover of background rhizobia.
- Applying LALFIX PEAT Pea & Lentil with an in-furrow application of LALFIX® START SPHERICAL Pulses inoculant or LALFIX® LIQUID Pea & **Lentil** increases and diversifies the rhizobia available to the crop.

CHARACTERISTICS

Active Ingredient

1 x 109 Rhizobium leguminosarum biovar viciae CFU/g

Package Size

6 x 1.2 kg case (6 x 42 oz packets per case)

Always read and follow label instructions.

APPLICATION RATE

ON-SEED

• Pea & Faba Bean: 1 case treats 240 bushels

(50 g per 45.4 kg of seed) • Lentil:

1 case treats 150 bushels (80 g per 45.4 kg of seed)

About Lallemand Plant Care

Since the beginning of the 20th Century, LALLEMAND has been an expert in yeast and bacteria manufacturing. The family-owned company is now a global leader in the development, production, and marketing of microorganisms for various agri-food industries. Using sound science and know-how, LALLEMAND PLANT CARE (LPC) works closely with clients to deliver the right technology, in the right formulation, for the right application. LPC is committed to solving grower challenges, significantly improving yield and crop vitality.
