

LALFIX LIQUID SOYBEAN

Liquid Inoculant for Soybean For In-Furrow Application

READ ALL DIRECTIONS BEFORE USING THIS PRODUCT

Minimum Guaranteed Analysis

ACTIVE INGREDIENTS:

1 x 10¹⁰ CFU/mL *Bradyrhizobium elkanii*

HOW IT WORKS

The active ingredient in LALFIX® LIQUID for Soybean is *Bradyrhizobium elkanii* and is selected for increased survival and competitiveness in soybean production. The *Bradyrhizobium elkanii* active ingredient is known to nodulate soybean roots and fix atmospheric nitrogen in a symbiotic relationship with the soybean plant.

IN-FURROW APPLICATION RATE

219.4 mL (7.4 fl oz) per hectare OR 88.8 mL (3.0 fl oz) per acre.

IN-FURROW APPLICATION METHOD

- Ensure the tank and application methods are clean.
- Shake the bladder to uniformly suspend the *Bradyrhizobium elkanii*.
- Apply the inoculant with a minimum of 50 L (13 US gal) per hectare OR 20 L (5 US gal) per acre of clean, non-chlorinated water.
- Calibrate the application equipment for the correct total volume of diluted product.
- One case will treat 40.5 hectares (100 acres).
- Apply product directly on the seed within the furrow.
- Once mixed, use product within 24 hours and keep temperature below 26.7 °C (80 °F).
- Lallemand Plant Care recommends using an on-seed inoculant along with an in-furrow application.
- A compatibility test should be conducted prior to co-application with other products.
- Do not mix with caustic fertilizers or pesticides.

PRECAUTIONS

The active ingredient in LALFIX® LIQUID for Soybean is naturally occurring *Bradyrhizobium elkanii* cells. Persons allergic to bacteria should avoid using this product. Standard protective clothing and equipment including gloves, safety goggles and a respirator are recommended while handling the product.

In case of contact with skin or eyes, immediately flush exposed areas with a continuous gentle stream of clean water. Seek medical attention if discomfort or irritation develops. Medical treatment should be based on the judgment of the physician in response to the reactions of the patient.

ACCIDENTAL RELEASE

Spilled liquid may be slippery. Flush spill area with adequate water to wash away slippery residues. In case of large spill, shut off release if safe to do so. Contain spill and clean up the material for disposal.

STORAGE AND HANDLING RECOMMENDATIONS

The active ingredients in LALFIX® LIQUID for Soybean are living microorganisms and require specific storage conditions to ensure viability and product performance.

- Do not store product in areas where freezing will occur, or where temperature will exceed 22 °C (72 °F).
- Store inoculants in a cool, dry place out of direct sunlight and wind.
- Use before expiration date stated on the package. The expiry date is valid only for unopened bags stored under cool conditions (<22 °C/72 °F).
- Open package only when ready to use. Once open, use the entire package.
- Do not store opened bags of LALFIX® LIQUID for Soybean.
- Unused product should be disposed of in accordance with applicable federal, provincial or state, and municipal laws and regulatory guidelines.

LIMITED WARRANTY

Danstar Ferment AG/LALLEMAND PLANT CARE ("Danstar") warrants that this inoculant (the "Product") will contain the minimum number of live cells per millilitre/gram as specified on the Product label at the time the Product is first sold by Danstar. Danstar makes no warranty as to the Product's viability or performance since the storage, use and application of the Product and growing condition are beyond the control of Danstar.

To the extent permitted by applicable law, Danstar makes no other warranties of any kind and hereby disclaims all other warranties, whether oral or written, express or implied, including without limitation, the implied warranties of the merchantability and fitness for a particular purpose and the warranty of non-infringement. Buyer of the Product assumes the risk to persons and real or personal property arising from the use, application or handling of the Product or seeds treated with the Product. Buyer's exclusive remedy for any and all losses, injury or damages resulting from a breach of this Limited Warranty shall be, at the election of Danstar, either the price paid by buyer for the Product purchased directly from Danstar, or the replacement of such quantity of the Product. Danstar shall not be responsible for any liabilities, damages, expenses, costs, or other losses, including without limitation, loss of profits suffered in connection with the use of the Product, and in no event shall Danstar be liable for any incidental, consequential, special or punitive damages to the buyer or any third party.

Buyers of the Product are deemed to have accepted the terms of this Limited Warranty upon opening the container containing the Product, requesting the Product to be applied to the seed, or use of seed to which the Product has been applied, whichever is earlier. The terms of this Limited Warranty may not be varied by any oral or written agreement.
